

ALKLEAN INDUSTRIES, INC.

P.O.W.E.R. – 15

PORTABLE ON-SITE WATER EFFLUENT RECOVERY SYSTEM

ALKLEAN'S *P.O.W.E.R. – 15* IS A REVOLUTIONARY ADVANCEMENT IN THE MOBILE CLEANING INDUSTRY. IT IS DESIGNED TO ACCOMMODATE THE VARYING NEEDS OF TODAY'S VOCATIONAL MOBILE POWER WASHER. FROM THE START UP CONTRACT CLEANER TO THE MOST SEASONED INDUSTRY PROFESSIONAL, THE *P.O.W.E.R. – 15* IS THE ANSWER TO TODAY'S MOBILE POWER WASHING ENVIRONMENTAL CONCERNS.

THE HEART OF THE *P.O.W.E.R. – 15* IS AN INDEPENDENT, HEAVY DUTY 7500 WATT GENERATOR THAT SUPPLIES POWER TO ALL OF THE SYSTEM'S INDUSTRIAL DUTY COMPONENTS. THIS STANDALONE GENERATOR IS ALMOST THREE TIMES THE SIZE OF MOST GENERATORS FOUND ON TODAY'S PRESSURE WASHERS THAT ARE ONLY DESIGNED TO OFFER ONE SMALL CIRCUIT TO RUN ACCESSORIES FROM.

THE *P.O.W.E.R. – 15* TRAILER SYSTEM IS DESIGNED TO ACCOMMODATE MOST POWER WASHER SKIDS ON THE MARKET. CONTRACT CLEANERS THAT CURRENTLY HAVE THEIR OWN POWER WASHING EQUIPMENT ARE NOT FORCED TO PURCHASE ANOTHER POWER WASHER SYSTEM THAT CAN ONLY RUN A SMALL 4 OR 5 G.P.M. WATER TREATMENT SYSTEM. THE *P.O.W.E.R. – 15* OFFERS PLENTY OF CAPACITY WITH ROOM TO GROW AND EXPAND THEIR WASHING OPERATION.

THE VACUUM SYSTEM IS MADE UP OF A TWO STAGE, LARGE CAPACITY VACUUM SYSTEM THAT HAS UP TO 240 CFM AND OVER 100 INCHES OF WATER LIFT! THE *P.O.W.E.R. – 15* IS DESIGNED TO BE MODULAR SO ADDITIONAL VACUUMS CAN BE ADDED TO PROCESS HIGHER VOLUMES OF WATER IF NECESSARY. THE VACUUM SYSTEM CONNECTS TO AN INNOVATIVE VACUUM / DIKE SYSTEM OR STAINLESS STEEL SCUPPER. TO COMPLETE THE PACKAGE, ALKLEAN HAS IT'S

DRAINBLOCKER DRAIN COVER AVAILABLE TO MAKE SURE THAT NO WASH WATER ENTERS THE STORM SEWER SYSTEM!

THE P.O.W.E.R.- 15 HAS A HIGH CAPACITY, TWO STAGE WATER / SOLIDS & OILS SEPARATION TANK SYSTEM THAT ALLOWS THE TRAMP SOLIDS & OILS TO SEPARATE OUT OF THE WATER, WHICH EXTENDS THE FILTER LIFE AND LOWERS THE OPERATIONS COST. ADDITIONALLY, THE PRIMARY PROCESS TANK HAS A OIL ABSORBENT SOCK IN IT TO HELP REMOVE ANY OILS THAT ARE FREE FLOATING IN THE TANK. THE PROCESS TANK CAPACITY IS ALMOST 600 GALLONS - ONE OF THE LARGEST IN THE INDUSTRY!

THE PROCESS PUMPS ON THE P.O.W.E.R.- 15 ARE HEAVY DUTY PUMPS THAT ARE ABLE TO PROCESS ALMOST FIVE TIMES MORE WATER THAN SOME OF THE COMPETITIVE UNITS ON THE MARKET. THE WATER IS SENT THROUGH A HIGH PRESSURE BAG FILTER SYSTEM THAT REMOVES PARTICULATE MATTER IN THE WATER DOWN TO 10 MICRON @ A PROCESS RATE OF MORE THAN 15

GALLONS PER MINUTE. PRESSURE GAUGES ARE INCLUDED TO HELP MONITOR THE FILTER BACK PRESSURE AND TO ENSURE OPTIMUM RUNNING EFFICIENCY ON THE FILTRATION SYSTEM.

THE CUSTOM PIPE FRAME TRAILER IS POWDER COATED AND COMES WITH TREATED WOOD FLOORS. THIS EXTENDED WIDTH TRAILER COMES IN 14', 16', 18', & 20' LENGTHS AND ALSO COMES WITH REMOVABLE SIDES. ADDITIONALLY, THIS TRAILER COMES WITH DIAMOND PLATE ALUMINUM FENDERS, SPARE TIRE MOUNT, A PROTECTED SWING-A-WAY JACK, ELECTRIC BRAKES, 2" "BULL-DOG" COUPLER, AND EASY TO REPLACE SAFETY CHAINS.

FINALLY, THE P.O.W.E.R. – 15 COMES WITH A LARGE, ALUMINUM, DIAMOND PLATE TOOL / STORAGE BOX TO STORE HOSES AND WANDS IN AND HIGH & LOW PRESSURE HOSE REELS WITH 100' OF HOSE ON EACH REEL. THE P.O.W.E.R. – 15 ALSO COMES WITH EASY TO

ACCESS DRAINS FOR BOTH TANKS AND ALKLEAN'S "KLEAN SWEEP" TANK CLEANING SYSTEM.

ALL CONNECTIONS ALSO COME WITH COUPLER STYLE CAPS TO MINIMIZE SPILLS.

TO SEE A FREE DEMONSTRATION OR CONSULT WITH ONE OF ALKLEAN'S MOBILE WASH WATER RECOVERY SPECIALISTS, CALL TODAY TO SET AN APPOINTMENT.

REMEMBER . . . WHEN IT HAS TO BE CLEAN . . . "ALWAYS CLEAN . . . ALWAYS ALKLEAN"
