

#1 in North America

Exceptional quality, high reliability and advanced features make Hotsy the number one name in High-Pressure Cleaning Equipment.

One look at Hotsy Hot-Water Pressure Washers tells you these are rugged, industrial-grade machines designed to give long life, high productivity and superior cleaning power.

As an industry leader and integrated manufacturer of pressure washers, Hotsy builds its own pumps, gun jets, valves and other key components critical to the long life and smooth operation of a Hotsy pressure washer.

After examining Hotsy's rugged designs and unique features, your customers will be convinced that a Hotsy Hot-Water Pressure Washer is the right machine for the job.

Hotsy's 7-year pump warranty and 5-year coil warranty make our

pressure washers the preferred choice for industrial cleaning by businesses and industries worldwide.

ETL certification to UL 1776 standards meets stringent bid and application requirements.
